

## 2041BRR MIGPRO WELDING GLOVES, MADE FROM COWHIDE SPLIT LEATHER

**SPARK  
RESISTANT**

Contact Us : [inquiry@fieldway.net](mailto:inquiry@fieldway.net)

### FEATURES

- Durable Cowhide Split Leather
- Kevlar® / Aramid Reinforced Stitching
- Fleece & Foam Inner Lining
- Reinforced Palm & Thumb Area
- Extended Gauntlet Cuff Protection

### APPLICATIONS

- Welding
- Tool Handling
- Rigging
- Demolition
- Heat Resistance Tasks
- Drilling Operations
- Metal Fabrication
- Construction

### PRODUCT DESCRIPTION

The 2041BRR MIGPRO Welding Gloves are crafted from premium cowhide split leather to deliver exceptional durability, heat resistance and protection in demanding welding environments. Designed with reinforced palm, thumb and high-wear areas, these gloves feature a fleece and foam inner lining for superior comfort and insulation. Kevlar® / aramid reinforced stitching ensures enhanced strength and long-lasting performance. The extended gauntlet cuff provides additional forearm protection against sparks, spatter and heat. Ideal for professional welders and industrial applications.
