- Abrasive Blasting
- Welding & Grinding
- Surface Preparation
- Automotive Repair
- Industrial Maintenance
- Metalworking
- Shipbuilding
- Construction Sites

PRODUCT DESCRIPTION

Designed for extreme abrasive blasting and heavy-duty environments, these gloves deliver outstanding durability, comfort and protection. Crafted from premium grain goatskin leather with a reinforced palm, thumb and index finger, they provide excellent resistance against wear, cuts and heat. The extended cowhide leather cuff offers superior forearm protection, while Kevlar® stitching enhances seam strength and longevity. Built for professionals who demand reliable hand protection in the toughest working conditions.
