PRODUCT DESCRIPTION

Fieldway® FWT-1014 ANSI Cut 8 Water Proof Impact Glove is engineered for extreme protection in high-risk environments. Designed with advanced TPR impact protection on the top of hand and full length of fingers, this glove delivers superior defense against impact and cuts. The 360° Kevlar® lining provides excellent cut resistance while the waterproof membrane keeps hands dry and protected from liquids. High visibility palm with silicon polka dots enhances grip and durability in high wear areas. With an extended neoprene wrist closure and secure hook and loop TPR pull tab, this glove offers a snug, safe, and adjustable fit for all-day comfort.

FEATURES

- TPR impact protection on top of hand and full length of finger
- 360° Kevlar® lining for excellent cut protection
- Fluids proofing prevents liquid to penetrate through to the skin
- High visible palm with Silicon Polka dots reinforces the high usage area
- Extended neoprene wrist closure
- Sewn with strong, heat-resistant Kevlar® thread
- Secure cuff with hook and loop TPR pull tab closure

OPTIONAL ENHANCEMENT

**Cut Levels
A2 – A9**

Winter

**Water
Proofing**
