PRODUCT DESCRIPTION

Fieldway FWT-1012 Impact Welding & Winter Glove is engineered for cold-weather oil and gas, welding and heavy industrial operations. High-tensile goat grain leather delivers a flexible premium grip with water and oil resistance, while 3M Thinsulate insulation supports warmth in low temperatures. Full-length TPR protection shields the top of the hand and fingers, Kevlar lining enhances cut protection, and the extended reflective gauntlet improves coverage and visibility.

FEATURES

- High-tensile goatskin construction for demanding winter O&G work
- Premium water- and oil-resistant goat grain leather
- 3M Thinsulate lining for cold operating conditions
- TPR impact protection on top of hand and full finger length
- Kevlar lining for enhanced cut protection
- Wing thumb for durability and comfort
- Extended gauntlet cuff with Hi-Viz reflective bands

APPLICATIONS

RG Rigs

OG Oil and Gas

MN Mining

MF Manufacturing

CN Construction

OPTIONAL PROTECTION

Available with higher cut-protection options A5-A9 for application-specific requirements.

TECHNICAL SPECIFICATIONS

PRODUCT CODE	FWT-1012
PRODUCT NAME	Impact Welding & Winter Glove
MATERIAL	High-Tensile Goat Grain Leather
LINING	3M Thinsulate / Kevlar Lining
IMPACT PROTECTION	Full-Length TPR - Hand & Fingers
RESISTANCE	Water and Oil Resistant
THUMB	Wing Thumb
CUFF	Extended Reflective Gauntlet
COLOR	Grey / Black / Hi-Viz Lime
APPLICATIONS	Rigs, O&G, Mining, Manufacturing, Construction
