PRODUCT DESCRIPTION

The Fieldway® FWT-2004 Welding Glove is designed for welding and thermal tasks. Crafted from premium full grain goat skin with welted seams, it is recommended for TIG welding, grinding, brazing, metal fabrication and maintenance. It provides true protection from heat, sparks and weld spatter, while the long split cuff protects the forearms.

FEATURES

- Protection for welding and thermal tasks
- Premium full grain goat skin and welted seams
- Recommended for TIG welding, grinding, brazing, metal fabrication and maintenance
- True protection from heat, sparks and weld spatter
- Long split cuff gives protection to the forearms
