PRODUCT DESCRIPTION

Fieldway® FWT-4006 Canadian Working Glove Reflector is made from high quality split leather for durable hand protection in demanding industrial environments. The cotton drill cloth back improves comfort and breathability, while high-visibility reflectors and knuckle protection enhance worker safety. An inside half elastic wrist provides a better fit, and customized colors are available.

FEATURES

- Made of high quality split leather
- Index and three fingers knuckle protection on back
- High visible reflectors on the back to enhance the safety standards
- Cotton drill cloth on the back gives extra comfort and breathability
- Inside half elastic for the wrist adjustment
- Available in customized colors

APPLICATIONS

Rigs

Oil and Gas Industry

Construction
