GRAY WOLF® MULTILAYER ALUMINIZED KEVLAR® LINED GLOVES

Contact Us : inquiry@fieldway.net

FEATURES

- Gray Wolf® aluminized heavy-duty glove is designed for high-temperature molten-metal splashes and handling.
- The multilayer glove provides extensive protection across the upper and lower hand areas.
- Premium coated leather outer layer reflects up to 90% - 95% of high radiant heat.
- Built to withstand repeated direct spills and splashes of molten metals where ordinary materials may fail.
- 100% DuPont™ Kevlar® lining provides outstanding strength against mechanical and thermal hazards.
- Kevlar® thread stitching improves strength and service life. Customization is available upon customer request.

APPLICATIONS

- Foundry Casting & Glass
- Metal Fabrication & Welding
- Military & Homeland Security
- Personal Protective Apparel
- Radiant Heat Control
- Automotive & Transportation
