FEATURES

- Gray Wolf® Aluminized heavy duty apparels are especially designed for high temperature molten metals splashes and handling.
- The COMPLETE SUIT protects approximately 100% of the upper and lower part of the body.
- The upper layer of coated premium leather reflects up to 90% - 95% of the high radiant heat.
- The Gray Wolf® gives ultimate protection against multiple direct spills and splashes of molten metals.
- 100% DuPont™ Kevlar® lining gives outstanding strength against mechanical and thermal hazards.
- Gray Wolf® is stitched with Kevlar® threads for maximum strength and life. Customization is available as per customer request.

APPLICATIONS

- Foundry Casting Glass, Metal Fabrications and Welding | Military & Homeland Security | Personal Protective Apparel | Radiant Heat Control | Automotive & Transportation

Type A

KEY PROTECTION HIGHLIGHTS

SPARK RESISTANT

Designed for high-temperature tasks with molten metal splash exposure.

FLAME RETARDANT

Multilayer protective construction for demanding heat and flame environments.

MOLTEN MATERIAL

Aluminized outer layer reflects up to 90-95% of radiant heat.

CUT RESISTANT

Kevlar® lining and Kevlar® stitching add mechanical and thermal strength.

FIELDWAY TECHNOLOGIES

Reliable Protection. Trusted Performance.
