

FWT-8003 FIELDWAY® ELECTRICAL ARC SUIT 100 CAL/CM²

Contact Us : inquiry@fieldway.net

FEATURES

- Fieldway® GrayWolf® Arc Flash garments are engineered and designed to deliver enhanced protection while remaining lightweight and breathable.
- The garment system is designed to take electrical arc protection to the next level of safety.
- Provides enhanced protection rated at 100 cal/cm² while maintaining a practical balance of comfort and protection.
- Multi-layer construction combines protective outer, arc-flash, inner comfort and heat-barrier layers.

4-LAYER PROTECTION SYSTEM

1st Layer: Inherently flame retardant, anti-static, oil & water repellent outer shell.

2nd Layer: High-performance arc flash layer (mid layer).

3rd Layer: Soft flame-retardant and anti-static inner shell.

4th Layer: Heat-barrier mid layer.

APPLICATIONS

- Utilities - substation work and underground applications
- Commercial - electrical panel and breaker-room maintenance
- Industrial - plant shutdowns and energized equipment repair
- General manufacturing - facility electrical work and electric vehicles

ARC HOOD

PROTECTIVE CUFF

HI-VIS TAPE

PROTECTION RATING **100 CAL/CM²**

KEY PROTECTION HIGHLIGHTS

100 CAL/CM²

High arc-rating protection for electrical arc hazards.

4-LAYER SYSTEM

Layered construction for enhanced protection.

OIL & WATER REPELLENT

Outer shell helps resist oil and water exposure.

HIGH-STRENGTH BUILD

Engineered protective construction for demanding work.

LIGHTWEIGHT COMFORT

Designed to stay practical, breathable and comfortable.

FIELDWAY TECHNOLOGIES

Reliable Protection. Trusted Performance.
