FIELDWAY®

ELECTRICAL ARC SUIT 40 CAL/CM²

Contact Us : inquiry@fieldway.net

FEATURES

- We are taking our customers to a new level of safety and protection.
- The Fieldway® GrayWolf® series of Arc Flash garments is engineered and designed for superior protection, lightweight comfort and breathability.
- Our supreme-grade garments take protection to the next level of safety.
- Designed as a secure electric arc garment with enhanced protection of 40 cal/cm² and a combination of real comfort and protection.

4-LAYER CONSTRUCTION

- **1st Layer:** Inherently flame retardant anti-static oil & water repellent outer shell
- **2nd Layer:** High performance arc flash layer - mid layer
- **3rd Layer:** Soft flame retardant & anti-static layer - inner shell
- **4th Layer:** Heat barrier - mid layer

APPLICATIONS

- Utilities - substation work and underground applications
- Commercial - electrical panel and breaker room maintenance
- Industrial - plant shutdowns and energized equipment repair
- General manufacturing - facility electrical work and electric vehicles

KEY PROTECTION HIGHLIGHTS

ARC FLASH PROTECTION

40 cal/cm² protection for high-risk electrical work.

FLAME RETARDANT

Flame-retardant layers for enhanced safety.

ANTI-STATIC

Helps reduce electrostatic discharge risk.

4-LAYER SAFETY

Multi-layer construction balances protection and comfort.

HIGH VISIBILITY

Reflective details improve worker visibility.

FIELDWAY TECHNOLOGIES

Reliable Protection. Trusted Performance.
