FEATURES

- **Protects the internal glove:** Helps protect the electrical insulating glove underneath from cuts, abrasions, punctures and general wear.
- **Secure Grip & Dexterity:** Kevlar® material conforms closely to the hand, supporting grip and hand dexterity during electrical work.
- **Comfortable & Easy to Work In:** The cover stays securely in place over the internal glove for comfortable hand movement and flexibility.
- **Leather-Reinforced Protection:** Leather reinforcement on the palm provides added protection against punctures, sharp edges and other physical impacts.

APPLICATIONS

- Lineman work & electrical maintenance
- Electrical utilities & power distribution
- Substation and field service work
- Electrical equipment inspection and repair

PRODUCT BENEFITS

Kevlar® Construction

Protective Outer Cover

Leather-Reinforced Palm

Improved Grip & Dexterity

Comfortable Fit

Helps Protect
Internal Electrical Gloves

PRODUCT TYPE

Kevlar® protective
outer glove

INTENDED USE

Electrical field work /
Lineman applications

CONSTRUCTION

Kevlar® outer cover with
leather-reinforced palm

USE WITH

Appropriate electrical
insulating glove

KEY PROTECTION HIGHLIGHTS

CUT & ABRASION PROTECTION

Helps protect the inner glove
from everyday wear and
