PRODUCT DESCRIPTION

Fieldway® XPRO® ProTuff Shell Cut-Resistant PU Coated Gloves are engineered for superior hand protection and comfort. Made with high-performance cut-resistant fibers and a durable PU coating, these gloves provide excellent grip, dexterity and abrasion resistance. The breathable knit shell keeps hands cool and comfortable, making them ideal for precision handling and general industrial applications.

FEATURES

1. CUT RESISTANT PROTECTION

High-performance fibers provide reliable cut and abrasion resistance.

2. PU COATED PALM

Offers excellent grip, control and durability in dry and slightly oily conditions.

3. BREATHABLE SHELL

Keeps hands cool and comfortable for extended wear.

4. FLEXIBLE & DEXTEROUS

Designed for maximum comfort and natural hand movement.

5. DURABLE CONSTRUCTION

Long-lasting performance in tough work environments.
